

Roman blinds are the definition of Luxury living

Roman blinds come in several styles, and we offer a few versions. Cord lock controlled is our most popular version, easy to use, fast operation and child safe. Chain control is slower to open/close Roman blinds but can be a good option if you don't want cords; we use stainless steel chains, but also have the option of black or white plastic if you choose. Roman blinds come with the choice of a range of painted and stained timber battens, which run across the front and back of the blinds. Optionally you can choose aluminum battens in a range of painted colours. Or the more contemporary sewed in battens, which have always been popular here in Perth. Roman blinds can come in all three types of fabric, Blockout to stop heat and light, Translucent/light filtering which lets in natural light, but stops heat and glare or Sheer, which you can see through during the day, but it stops some heat UV and glare. All have their advantages and its best to take advise from our experts before deciding.

Roman Blinds

Give your home a treat with the Roman blinds in the most amazing fabrics from our stylish range

Quality is Guaranteed

We guarantee you will be so impressed by the quality of our Roman Blinds, as we only use Australian mechanisms, brackets, parts and the very best Australian made fabrics.

Plus we have the largest fabric range in Perth including every Designer brand to choose from. Our fitters are the best in the business and our team knows everything there is to know about Romans.

Perth Eagle Blinds has 30 years of experience providing only the best premium products & we always ensure you will receive the best quality available.

Forget the chains and cords

If you don't want to have any chains or cords to control your blinds, we can offer you Remote/Switch controlled Roman blinds. Switch control Romans can either work from a switch hard wired into your home or through home automation, like C-Bus. Remote controlled Romans work with a choice of Remote controls and motors. Up to 6 channels per remote. All motors come with a 5-year warranty and we only use top quality motors including Somfy, Merger and Hunter Douglas.

The motors run on 240v hard-wired power so you will need an electrician to install the cables prior to the blinds being fitted. Motorized Romans are made differently to a normal Roman blind as they roll on a roller tube when you press the button up/down rather than just folding up. Visit our showroom for more info.

“For the best Roman Blinds in Perth, you have to come to us! We can even make them work with a remote control”

Quoted by Paul Assinder- Sales Director/Designer

When it comes to Blinds we can do it all

Luxaflex window fashions offer Top down bottom up version of Roman blinds too, see image below. This can be perfect where you have a view but privacy issues with the same window. This is an exclusive product with a huge range of beautiful fabrics. See our full range of fabrics in store or Perth Design range on our website.
